Sir:

Your applicant, named above, hereby petitions for grant of a utility patent to him or any assignee(s) of record, at the time of issuance, for the invention under the application number, listed above.

The enclosed material is in direct response to your "Notice of Non-Compliant Amendment", dated May 8, 2006.

This letter confirms that I have accepted the recommendations made in your letter with "Detailed Action", dated September 1, 2005. The claims, as rewritten, show that I have accepted the rejected claims. I also followed the suggestions made by the Examiner in the "Allowable Subject Matter" section and have rewritten claim 7 accordingly.

A copy of the claims, as rewritten and filed previously, has been attached for your reference.

I trust the application will now be acceptable.

Respectfully,
